

To the attention of the office of Pia Kjærsgaard, Speaker of the Parliament of Denmark

Dear Madam/Sir,

On behalf of former Belgian Prime Minister Prof Mark Eyskens, may I kindly ask you to forward his enclosed letter and its attachments to the **Members of the Committees on Health, Environment and Agriculture of your House**. The letter addresses an urgent public health and environment issue that requires immediate action both at the EU and Member States level, namely increasing the availability of biological low-risk plant protection products, which are viable alternatives to traditional and often hazardous pesticides.

On behalf of Prof Eyskens, I thank you in advance for your much appreciated assistance.

Kind regards,
Rodica Avornic
